SABINO CANYON/TANQUE VERDE INTERSECTION IMPROVEMENTS

Travel Restrictions/Lane Closures:

Beginning July 16th, construction crews will begin milling and paving work at night. This work is expected to last until August 3rd with work being performed Monday through Thursday. Friday through Sunday will be free of construction activities provided the contractor doesn't encounter a serious monsoon event. The hours for night work will be 7 PM to 6 AM. Expect delays during this work with the heaviest delays occurring from 9 PM to 5 AM.

Construction crews will also be working during the day to crack seal and patch existing asphalt. This work will be performed one lane at a time and will result in a single lane closure for the duration of the work.

Est. Substantial Completion Date: 8/16/2012 (All work except final striping complete)

Est. Final Project Completion Date: 9/7/2012
